## WE FILL THE GAP

[www.forallfa.com](http://www.forallfa.com)

The beginning was in 2009 when BEAUTIFUL TIME company was founded and it's headquartered in Saudi Arabia in Jeddah Subsequently, a magazine with the same name was established in 2010.

This entity continued to evolve until we established EASY INDEX company in 2014, which specialized in multiple fields ( Marketing, Programming, Advertising, Public relations, Exhibition and Bazaar processing ).

Based on the long-standing legacy of our company and developments in the Kingdom of Saudi Arabia,

FORALL Technology was founded in 2019 and specializes in the fields of (Digital marketing and programming).

We have a clear vision for our goals that contributed to support local businesses and helping them grow and expand.

To keep pace with Saudi Arabia's Vision 2030.

FORALL  
WE FILL THE GAP  
[www.forallfa.com](http://www.forallfa.com)

THE FIRST AND LARGEST GLOBAL APPLICATION

FORALL contains more than 30 services to provide and meet all daily services that can be available in one application

Available in more than 20 countries and more than 40 cities around the world and supports more than 10 languages.

We strive to create an exceptional and innovative technological experience  
Our goal is to provide all products and services related to your person, your institution, or your company through the largest unique comprehensive platform of its kind  
We also aim to build the largest comprehensive service platform in the world, where you can easily and effectively access everything you need.

30  
SERVICE

+20  
COUNTRIES

+10  
LANGUAGES

THE FIRST AND LARGEST GLOBAL APPLICATION

Because our goal is to enhance the presence of companies and brands and increase interaction with their global target audience. We have also provided the application in more than 10 languages so that we promote spread in more than 20 countries around the world.

FORALL launches three other versions:

## **VENDOR**

is designed for company administrators, store owners, and brand owners, allowing them to register all their establishment's data and manage their reports.

## **SALES**

Dedicated to Sales Delegates to record and maintain a customer database, in addition to providing necessary guidelines to facilitate the registration process.

## **RIDERS**

Dedicated to delivery representatives and vehicle owners, including platforms such as ( Take a Tour, Delivery, book a Car ) offering a variety of delivery functions.

# Why us ?

Great experience . Fast and high-quality execution . Competing without competition . 100% Saudi national company

Our company takes pride in it's affiliation with the Kingdom of Saudi Arabia,  
as it reflects the values of loyalty and national belonging in all aspects of its work.

It's identity depends on promoting sustainable development and enhancing  
it's effective role in supporting the Kingdom's economy and achieving the goals of Vision 2030.

# Our Vision

Based on our services, we always strive to develop and expand our vision for the future, as we aim to expand, spread, and maintain our main goal of achieving and meeting our customers' needs and making them available in one place without any hassle, using the latest marketing and technological methods.

We strive to maintain our commitment to provide a service that is worthy fo our customers.

# Shopping

FORALL The shopping platform from FORALL Technology allows you to showcase your products and services in a professional and easily accessible way. It presents your details and features clearly to a wide audience of consumers, increasing sales opportunities and enhancing your brand visibility.

It also enables customers to enjoy a convenient in-store shopping experience by scanning the branch's QR code, followed by the barcode of each product. The order is then automatically recorded in the system, and payment is made through our platform's payment service.

# Book a car

FORALL application by FORALL Technology is an integrated platform that connects captains with passengers to provide reliable and seamless rides anytime, with complete ease.

The app gives captains full freedom to define their service areas, trip types, working hours, and travel distances according to their daily schedules and goals.

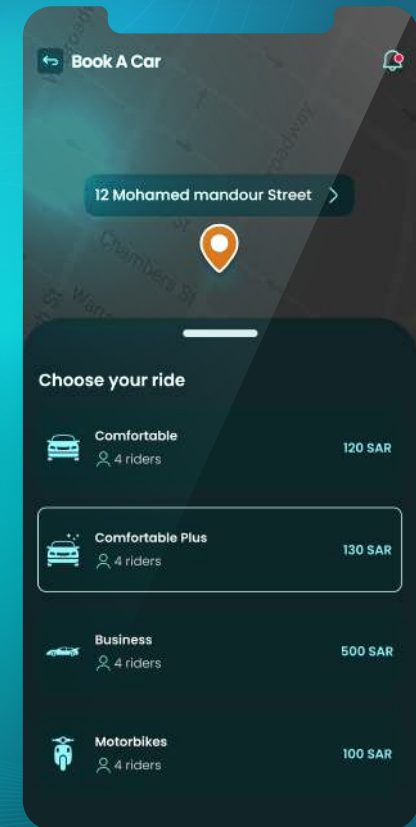

The system includes a set of smart tools that make the driving and riding experience more efficient and professional:

- Smart navigation ensures accurate arrival in the shortest possible time.
- Instant chat between the captain and the passenger to facilitate communication during the trip.
- Reliable rating system that enhances trust and transparency between both parties.
- Continuous technical support from Foral Technology to ensure uninterrupted system operation.
- Professional customer service to follow up on requests and handle any inquiries promptly.
- Flexibility to modify the trip route by mutual agreement between both parties during execution.
- Trip details sharing that allows the customer to share a tracking link with others for increased safety.
- Direct payment option through the FORALL platform for an easy and secure experience for both sides.

The app also offers a special option for female captains, enabling them to accept rides from female passengers only providing more comfort and safety according to their personal preferences.

Your journey... your way — FORALL

With FORALL, every trip begins with confidence and ends with satisfaction.

# Road Assist

FORALL application from FORALL Technology offers the “With You on the Road” service as an integrated platform for managing roadside assistance services in a smart and efficient way.

The service aims to make dealing with breakdowns and emergency situations easier and more professional through a system that connects maintenance centers, fuel stations, and rescue vehicles in one place.

The system allows:

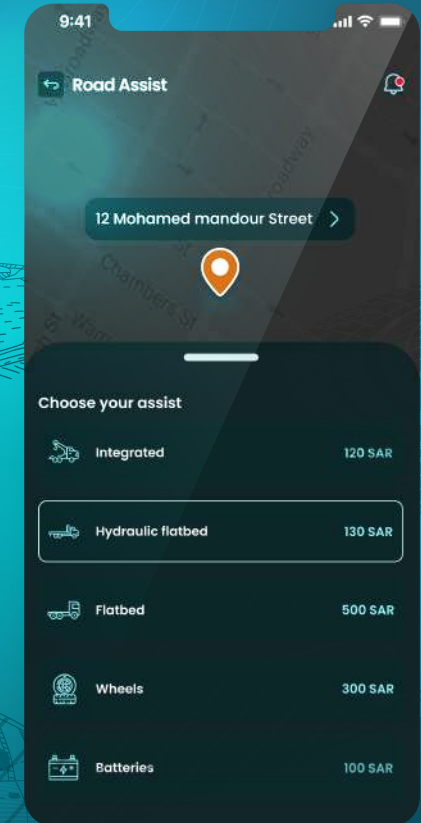

- Instant roadside assistance requests in case of any breakdown or emergency, with the option to attach photos.
- Live tracking through smart navigation to ensure the support team reaches the location as quickly as possible.
- An integrated booking system for receiving maintenance appointments and easily organizing your work schedule.
- Electronic management of maintenance and breakdown reports to document work and improve performance.
- A professional rating system that enhances your credibility and increases customer trust in your services.
- Technical support and customer service from Foral Technology to assist you at any time.
- The ability to pay directly through the FORALL platform for an easy and secure experience for both parties.

 Rescue Cranes

Be part of the future with FORALL Road Assist

# Delivery

FORALL application from FORALL Technology offers an external delivery service as a comprehensive solution for transporting orders and parcels quickly and efficiently.

Whether you are a restaurant, supermarket, retail store, or even a home-based business, the platform helps you deliver your products easily from any location to any destination chosen by the customer.

The system provides full flexibility in managing delivery operations:

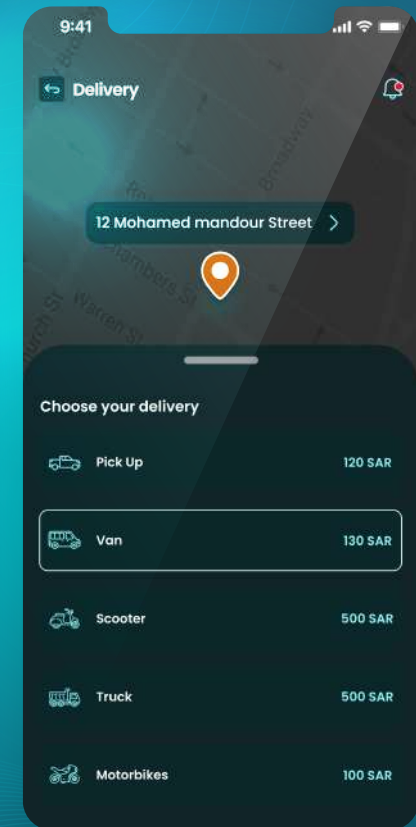

- Receiving orders from any location — home, office, or store.
- Direct delivery to the customer's current location or any other address they specify.
- Real-time tracking of the order status from pickup to delivery.
- Instant chat to facilitate communication between the sender and the captain for more accurate and faster coordination.
- A clear rating system that ensures service quality and punctuality.
- Continuous technical support from Foral Technology to guarantee stable and smooth performance around the clock.
- The ability to pay directly through the FORALL platform for an easy and secure experience for both parties.

 **Standard Delivery:** Deliver groceries, packages, online orders or general orders from one place to another.

**Whether you're a restaurant, mini market, retail store, or a home-based business our platform helps you deliver better, every time.**

 **Outsource Delivery:** A flexible delivery service where you pick up items from any location—such as a home, store, or office—and deliver them directly to the client's current location or any other destination they choose.

With FORALL Delivery, every shipment is delivered on time, and every process runs smoothly.

## Take a tour

FORALL application from FORALL Technology offers the “Take a Tour” service — a unique platform that connects luxury car owners with clients seeking distinguished and elegant experiences for every journey.

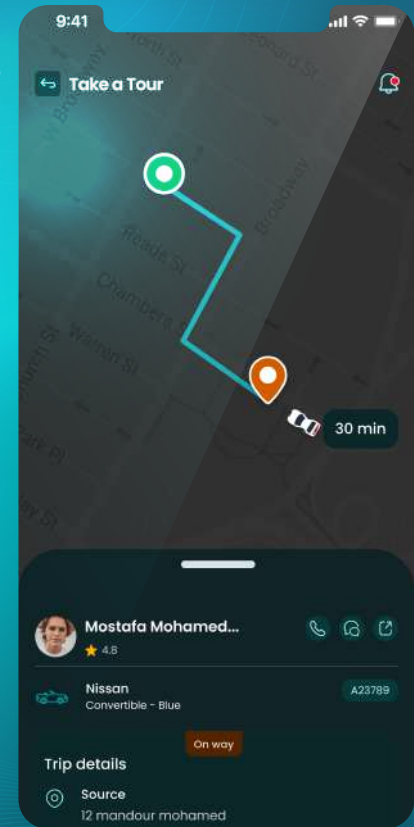

Whether it’s a special celebration, a sightseeing tour, or an exclusive photoshoot trip, the app provides an easy and secure way to book the right car and enjoy an exceptional experience that combines luxury and distinction.

The system gives drivers and owners full flexibility in managing trips:

- Setting the trip price based on the type of car and nature of the tour.
- Flexibility to modify the trip route by mutual agreement between both parties during execution.
- Sharing trip details and allowing the client to share a tracking link with others for enhanced safety.
- Instant chat between both parties to coordinate details accurately and quickly.
- A professional rating system that enhances trust and ensures quality.
- 24/7 technical support and customer service for a hassle-free experience.
- The ability to pay directly through the FORALL platform for an easy and secure experience for both sides.

 **With Take a Tour, every ride becomes a refined experience worthy of you.**

Drive the car... and let luxury tell your story.
